

There are many reasons the change from a State Appointed Board to an Elected Board for SLPS is important to charter school families including the current SLPS/NAACP lawsuit, availability of vacant public school buildings, health of the District, and quality of education students are receiving (who may at some point elect to transfer to a charter school). A large showing from the charter school community would demonstrate that the issues matter to voters and parents....and charter school parents intend to vote.

If you have a school shirt, pin, etc. please them to wear and identify yourselves as proud parents/staff of GSA.

A strong educational community is made up of excellent independent public charter schools and a healthy school district.

We hope to see you there!
