

Dear Third Grade Parents and Guardians,

In preparation of an emergency school closure due to the prevention of spreading the COVID-19, the Third Grade team has put together a 10 day work plan for students to complete. The plan includes **paper packets, Educational websites like IXL and I-Ready (any web address not found on the GSA computer lab website will be sent via email), teacher youtube channels, and weekly emails every Tuesday-to guide students through their lessons and provide additional resources.** Despite the challenges, we will continue to educate our students with quality assignments. You will find work based on our grade level standards and expectations for our core subject areas of **Math, Writing, Reading, and Grammar.** Videos will be shared for **Science and Social Studies.** We recommend that students **daily** spend a **total of 3 hours** on their subjects. We do not want the students to regress in their learning because of this unfortunate event.
