

GSA-SMILEY: 5th GRADE WORK

Dear 5th Grade Families,

In the event of an extended school closing, the 5th grade teachers have compiled a work list for students. Students will be expected to continue learning at home in the event of such a closing. Work will focus primarily on the skills/standards their teachers feel are most important for the students to learn while they are not at school.

ELA - Students will be working on important reading skills such as main idea/details, cause/effect, text structure, word meaning in context, and understanding figurative language, as well as independent reading and grammar practice. *Students are to check Google Classroom daily for assignments.* If internet access is not available to your child, a packet will be available for pick-up at the school.

Assignments that may be posted:

Reading through ReadWorks or Commonlit

Daily reading log - Students should read at least 20 per weekday.

IXL skills

NoRedInk (grammar/writing practice)

Math - Students will be provided a packet of assignments. They will also work on assignments on Google Classroom daily, as well as IXL strands and video/practice/quiz on Khan Academy.

Social Studies - Students have been given a packet of information. They will need to use their Google Classroom to complete activities such as their test, notes, and an online quiz. The packet includes a letter with more information. Additional assignments will be posted on Google Classroom as needed! If students were not in attendance on 3/16, packets will be available in the office.

Science - Students will continue learning science through Google classroom. We have already been using Google virtual classrooms as a learning platform. Learning resources (youtube videos, IXL) and tests will be posted daily in their accounts.

Elite Math- Students will have a packet. They are supposed to finish four sides every school day during the break.

***Teachers will be available via email M-F from 10 a.m. to 2 p.m. during the extended break, with the exception of Mar. 23-27.**
